## **WARREN COUNTY SCHOOLS STUDENTS/STAFF ONLY**

**Care Solace** is a web-based service that connects Warren County students, staff, and their families with quality mental health and substance use treatment providers matched to their needs. You can access Care Solace services by reaching out to the School Counselor at your child's school. Or, if you would like to access services anonymously, you can visit the website at [caresolace.com/warren](https://caresolace.com/warren).

Care Solace works to provide you with a "Care Companion" that assists in matching mental health and substance use treatment providers to your needs, your insurance or payment ability, and your preferences.

**Warren County Schools and Family Care Wellness Teletherapy** is a service offered to students in the Warren County School district. Students can be scheduled for a mental health teletherapy visit at school, in a private room, with a partnering provider from Family Care Wellness. Visits take place in a private space through use of medically approved confidential software and use of an iPad. Parents must sign a consent form for their student to be scheduled for visits. For more information contact your School Counselor or Shannon Railling, Coordinated School Health Director at [raillings@warrenschoools.com](mailto:raillings@warrenschoools.com) or 931-668-4022 ext. 11808. Visits are free and do not count toward the number of visits available through your health insurance. They are scheduled during non-academic class time. Appointments are limited and subject to availability.
